Quick Start Guide

ZYXEL ENGLISH

Weatherproof Enclosure Kit

Mounting Kit (Sold Separately)

Seal the inner case's wall mounting holes with two rubber plugs. Repeat steps 3-7 of the Weatherproof Enclosure Kit Wall Mounting QSG to prepare the AP for pole mounting.

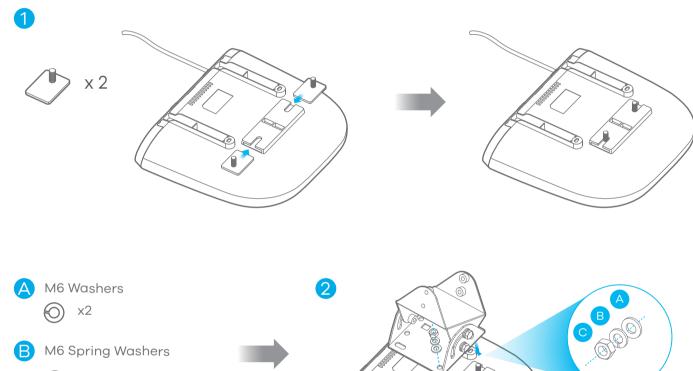

Mounting Preparation

- 🚺 🕦 Insert two radome brackets into the slots on the inner case's back
 - 2 Use A, B and C to attach the bracket to the AP.

Note: Make sure the AP is turned off. Disconnect the PoE injector from the power outlet.

AP and Rotating Bracket Assembly

Quick Start Guide

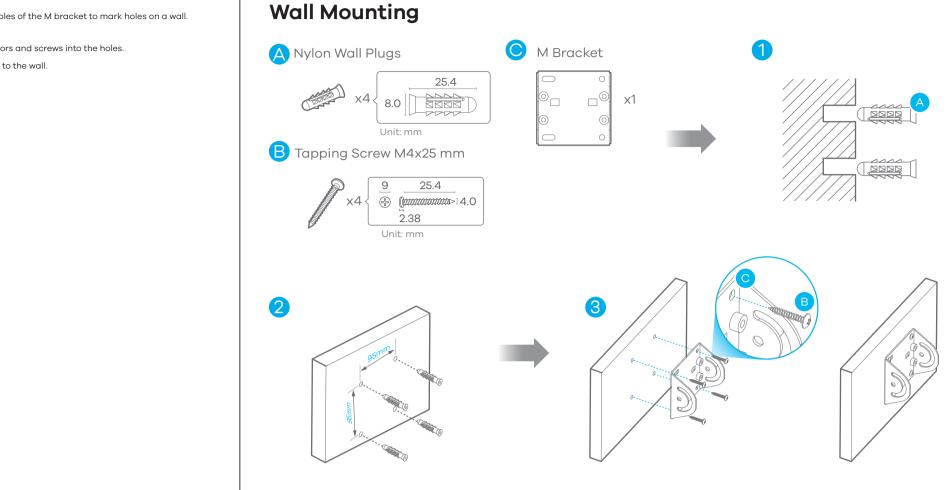

ZYXEL ENGLISH

Weatherproof Enclosure Kit

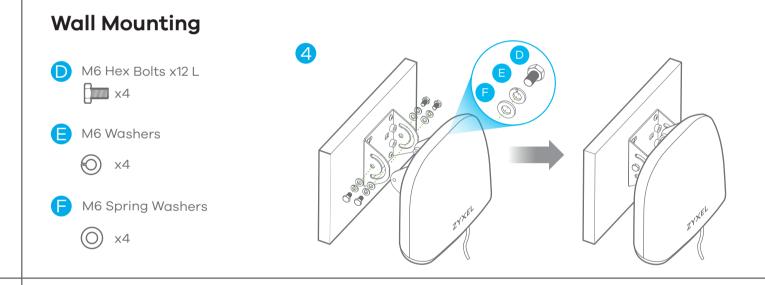

Mounting Kit (Sold Separately)

- Drill four holes in a wall.
- 2 Insert the screw anchors and screws into the holes.
- 3 Secure the M bracket to the wall.

EN 4 Secure the AP to the M bracket.

(EN 1) Use A, B and C to attach the brackets to the pole.

2 Use D, E and F to attach the AP with the port facing down to C on the pole. Do not tighten the bolts too much.
